Math

Even though we have completed some of our TAKS test please remember school is not over! We are continuing to review the concepts we have learned over the year as well as learning some new ones! The teachers have some fun math activities planned for the spring so come ready for some creative math!

Social Studies

In social studies, we are just finishing our U.S. maps for review before we have our quiz on the 50 states. We will also begin an overview of some of the important events that occurred in American history.

Important Dates

April 8 – 5th Grade Math TAKS
April 14 – 18 – BOOK FAIR in Library
April 15 – Donuts for Dad from 7:00 – 8:15
April 16 – 4th Grade Lunch with Loved Ones
April 17 – 5th Grade Lunch with Loved Ones
April 18 – Movie Day
April 25 – Music Program (9:00- 5th grade) (2:30 – 4th grade)
April 29 – 4th grade Math TAKS
April 30 – 4th grade Reading TAKS/5th grade Reading Re-test
May 1 – 5th grade Science TAKS

Science

Study, Study, Study—these are the words your Science students are hearing daily in Science class. A study packet has been sent home with each student covering the concepts taught this year. We ask that you help your child review this packet. Please make plans to review nightly and that they understand each of the concepts. With the extra effort on your child's part and your help with studying, his/her TAKS Science score should be great!

Reading

Congratulations! Northside fifth graders did an excellent job on their Reading TAKS test. We are very proud of their success! We did have a few who will retake the test on the 30th of April. We look forward to sharing their success with them. We feel confident they will pass too. We are continuing to read to complete our goals in roaring reading. Please continue to monitor your child's progress. *Thank you parents for helping us to inspire your child's success.*

Writing

We are continuing our study of Science in class. The Science vocabulary provides a rich environment to expand our writing skills. The students role-play, create new worlds, and investigate concepts on paper. After the TAKS test we hope to do some poetry.
